Sir:

Applicant received a Notice of Omitted Items in a Nonprovisional Application for the above-identified matter dated June 24, 2004. The Notice indicated that Figure 4 described in the specification appeared to be missing from the papers filed.

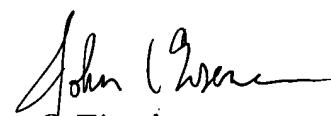

A brief review of the application indicates that a typographical error exists in the Brief Description of the Drawings for this application. The Brief Description of the Drawings refers to Figures 4A, 4B and Figure 4. The paragraph referring to Figure 4 should never have been included with the Brief Description of the Drawings.

The remaining text in the application properly refers to Figures 4A and 4B, which were filed with the original application. A Preliminary Amendment filed herewith cancels the paragraph in the Brief Description of the Drawings improperly referring to a Figure 4. Thus, the application is now in condition for examination.

If Patent Office personnel have any questions regarding this matter, they are invited to contact the undersigned at the telephone number listed below.

Please charge any shortage in fees due in connection with the filing of this, concurrent and future replies, including extension of time fees, to Deposit Account 16-0607 and please credit any excess fees to such deposit account.

Respectfully submitted,
FLESHNER & KIM, LLP
